Peak Performance Service Agreement

A Maintenance Plan Can Protect Your Business

Imagine, in the dead of winter, your heat goes down in a public space. You lose customers. Or tenants. Or staff. The cost of a maintenance plan with Howell's is more than worth it. Routine maintenance does more than keep your equipment clean. When your equipment is maintained regularly, it runs up to 160% more efficiently. It lasts longer. It's more reliable. And it provides a safer, healthier environment for your business. It can also save your reputation.

Howell's planned maintenance programs keep your equipment running properly with greater efficiency and reliability. We'll inventory your equipment, create an ideal coverage plan, and deliver regular reports on the operation of your HVAC systems. Plus, you get the peace of mind of 24/7 service, live phone calls, and our highly trained technicians and mechanics—all of them NATE-certified.

Flexibility, Reliability, and Confidence

When you have a planned maintenance agreement with Howell's, you benefit from:

- **Cost savings**—Take advantage of discounted material pricing and preferential service labor rates.
- **Top-quality materials**—That includes MERV 7 or greater pleated filters, high-quality belts, and the most environmentally responsible chemicals and lubricants.
- **Efficiency upgrade reporting**—At every visit, we'll provide a performance status of your products and systems.
- **Convenience**—Immediate electronic invoices for easy processing.
- **Perks and benefits**—As a Peak Performance Maintenance customer, ALL employees of your business will receive a 10% discount on their residential HVAC maintenance agreement, service, and repairs. In addition, you don't pay ANY overtime or after-hours charges.

Custom Coverage Plans

We'll develop your planned maintenance coverage based on your business needs, your building layout, and your equipment. Plans cover existing equipment as well as new equipment. Each agreement is customized to the location and to your specific business, including the number of visits per year. Our plans typically cover these systems:

- HVAC
- VRF/VRV
- Chillers
- Cooling towers
